## OBJECTIVE

Aspiring Full-Stack Web Developer currently pursuing Web Development at Humber College (North Campus), seeking an internship or co-op position to contribute technical expertise and a strong passion for building responsive, user-centric web applications. Adept in JavaScript, React, PHP, React, Laravel and MySQL, with a commitment to writing clean code, solving real-world problems, and growing within a dynamic development team.

---

## EDUCATION

### **Post Graduation in Web Development**

*Humber Polytechnic, North Campus*

Sept 2024 – Present

### **Bachelors in Electronics and Communication Engineering**

*Sardar Vallabhai Patel Institute of Technology*

Jun 2018 – April 2022

---

## WORK EXPERIENCE

### **IELTS and DUOLINGO Trainer**

*Kanan.Co*

July 2023 – Jun 2024

- Designed customized lesson plans and mock tests to enhance student confidence and address targeted improvement areas.
- Created engaging content and practice materials aligned with the latest test patterns and exam expectations.
- Built strong rapport with students from diverse backgrounds, fostering a motivating and supportive learning environment.

### **Student Peer Mentor**

*Humber Polytechnic*

Dec 2024 – April 2025

- Led interactive mentorship sessions to support new students in their academic and campus transition.
  - Served as a liaison between students and faculty, addressing concerns and fostering community engagement.
  - Built strong peer connections, promoting an inclusive and collaborative environment.
- 

## PORTFOLIO HIGHLIGHTS

### **ONTARIO PARKS PROJECT (Role: Web Developer/ Researcher)**

- Developed a web-based application to boost year-round engagement with Ontario Parks, addressing a key user challenge.
- Collaborated with a cross-functional team to deliver a complete solution from concept to deployment.

### **Cricket Award Management System (Role: Developer)**

- Engineered an ASP.NET Core MVC Web API with EF Core to manage IPL Teams, Players, Awards, Votes, and Voters, optimizing CRUD workflows and ensuring data integrity.
  - Architected complex entity relationships and fan-driven voting mechanisms, enabling reliable transactional consistency and a seamless management experience.
-
